FAMILIES

on Safari

WWW.FALCONSAFARIS.COM

“Safari takes you way out of your world. You know the one.”

Our family safaris set the template for all of Falcon’s safaris journey, our ancestral homeland. We loved the planning, we had immeasurable fun, and we learned that care and mutual support were the keys to successful trips. I think that familial care is what inspires such affection and loyalty from our guests.

Families travelling with small kids and tighter budgets might find it easier to base themselves in major centres like Arusha (where there are shops, medical facilities and other support services) and do shorter excursions from that base on their Tanzania Safari.

An example of an easy and rewarding day trip would be to nearby Arusha National Park where there is plenty of wildlife, but for the full experience, a trip further afield to Ngorongoro Crater , Tarangire or Lake Manyara would be more impressive.
