The camp borders the park boundary and has plenty of resident game all around. Buffalo and elephants are frequent visitors to the camp. The tented cottages all have bathrooms en suite with hot and cold running water and electricity. Each has a private viewing deck and are designed with your comfort in mind. The mess tent and bar looks over the Tarangire floodplains, where plenty of game congregates.

In the evening, enjoy pre-dinner drinks overlooking the floodplains recounting the day's adventures

Enjoy day long game viewing traversing the park in search of lions, eland, hartebeest and giraffe, to name but a few of the many species found here. Stop in some shade for a picnic lunch and relax with a panoramic view of the plains game slowly moving as they constantly feed. In the afternoon, meander through the park looking at the prolific bird life. Watch the herbivores resting as they chew the cud, continually on the lookout for any predators. As the day draws to a close, stop and watch the sunset with a chilled beverage and celebrate another wonderful day on safari.

DAY 3: NGORONGORO CONSERVATION AREA

Go for an early morning bush walk, identify and follow the myriad of tracks left in the earth from the many nocturnal visitors around camp. Relish a well deserved breakfast before setting off to the airstrip for your flight to Manyara airstrip and journey to Ngorongoro Crater area. At the Manyara airstrip, a guide will be there to meet you and drive you up the scenic route that climbs and twists up the ancient volcano to your camp right on the rim of the crater.

This small mobile camp, set strategically in the beautiful Ngorongoro Highlands has stunning views overlooking the Ngorongoro Crater. Each en suite tent is equipped with cosy blankets on comfy beds to ensure that you rest in warmth and comfort, as the evenings in the highlands can get quite chilly.

After an afternoon game drive or guided walk settle in front of the toasty fire and relax before enjoying a candlelit dinner under the stars for a truly romantic experience

DAY 4: NGORONGORO CRATER FLOOR

Feast on an early breakfast whilst the whole volcano is draped in a pervasive morning mist. As the sun rises, the mist lifts and it's time to head down to the crater floor and some spectacular game viewing.

Ngorongoro Crater is the largest unflooded and unbroken caldera in the world. This breathtaking natural wonder was named a UNESCO World Heritage site due to the diversity of wildlife and landscapes. The permanent water source and sweet pastures on the crater floor supports a large resident population of wildlife, including the big five. Spend your day viewing the many sightings of different game and birds as you rove this piece of paradise.

DAY 5 & 6: SERENGETI

Wake up early and go on a climb to see the waterfall on the rim of Olmoti Mountain, before heading back down to Lake Manyara and boarding a flight to the Serengeti. Here a guide will meet you and transfer you to the camp, your base for the next two nights. The Serengeti camp is a mobile camp positioned seasonally to have the best vantage point to observe the great migration.

This small camp, with comfortable spacious en suite tents, offers an intimate base to explore the vast Serengeti plains. The tents have all the creature comforts needed for an excellent "glamping safari".

Spend the next two days on game drives watching the game filled plains, searching for the many predators that take opportunistic forays into the massive herds in search of an easy meal.
